

**US Army Corps
of Engineers®**

Clinton River, MI

Project Features

- River starts in Oakland County, MI it flows east about 60 miles and empties into Anchor Bay in the northwest part of Lake St. Clair.
- Authorization: River & Harbor Act of 5 Aug 1886, modified under Section 107 River & Harbor Act of 1960.
- Shallow Draft recreational harbor.
- Project depth is 8 feet.
- Approximately 8 miles of maintained Federal channel.
- Approximately 1,500 feet of breakwater.
- The Clinton River Confined Disposal Facility was placed in operation in the 1990s and is anticipated to have sufficient capacity for at least the next 25 years.
- Major stakeholders include the Michigan DNR, the City of Mount Clemens, and various marina owners and private boaters.

Project Needs

- Requires periodic maintenance dredging on a three to five year cycle of approximately 20,000 cubic yards.
- Navigation structures are primarily maintained by Government floating plant.

Consequences of Not Maintaining the Project

- Loss of jobs locally.
- Loss of recreational and charter fishing in the area.

Transportation Importance

- This project serves as an important Harbor of Refuge as well as charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
